• Applicants to the Medical Colleges (Medicine, Dental Medicine, and Pharmacology): A minimum average of 85% (Scientific Section) for applying to the College of Medicine or 80% (General Section) for applying to the College of Dentistry. Applicants to the College of Pharmacology must have an average of 75% or above.

• Applicants to the Colleges of Pharmacy, Education, Nursing, Social Work, and Law: A minimum average of 75% (Scientific Section) for applying to the Colleges of Pharmacy, Education, and Nursing, and 80% (General Section) for applying to the College of Social Work and Law.

• Applicants to the College of Business Administration: A minimum average of 85% for applying to the College of Business and Social Science.

• Applicants to the College of Computer Science and Information Technology: A minimum average of 85% for applying to the College of Computer Science, and 80% for applying to the College of Information Technology.

• Applicants to the College of Engineering: A minimum average of 85% for applying to the College of Engineering.

• Applicants to the College of Arts and Humanities: A minimum average of 75% for applying to the College of Arts, Humanities, and Social Sciences.

• Applicants to the College of Science: A minimum average of 75% for applying to the College of Science.

• Applicants to the College of Science and College of Computing and Informatics: A minimum average of 85% for applying to the College of Science, and 80% for applying to the College of Computing and Informatics.

• Applicants who attended school outside the UAE: A minimum average of 85% (Scientific Section) for applying to the College of Medicine or 80% (General Section) for applying to the College of Dentistry. Applicants to the College of Pharmacology must have an average of 75% or above.

• Applicants who are still in their seats: According to their respective fields (A. High School Diploma or its equivalent: Completion of secondary education or an equivalent level with the grade of at least B or above in Biology or Chemistry in Gr12 certificate. B. Certificates of Technical Secondary Education or its Equivalent: Students who have graduated from a technical secondary education must have at least 6 courses in the fields of Mathematics, Science, and Arts, and a minimum average of 75% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. C. Certificates of Secondary Education from a recognized school: Students may be admitted upon meeting the following conditions: 1. Completion of secondary education or an equivalent level with a grade of at least B or above in all courses in Science, Math, and English. 2. A minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. D. Certificates of Secondary Education from a Ministry of Education or its equivalent: Students must have studied 6 courses in the fields of Mathematics, Science, and Arts, and a minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. E. Certificates of Secondary Education from a private school: Students must have studied 6 courses in the fields of Mathematics, Science, and Arts, and a minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. F. Certificates of Secondary Education from a foreign country: Certificates of Secondary Education from a foreign country may be admitted to an undergraduate program according to the following criteria: 1. Completion of secondary education or an equivalent level with the grade of at least B or above in Biology or Chemistry in Gr12 certificate. 2. A minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. G. Certificates of Technical Secondary Education or its Equivalent: Students who have graduated from a technical secondary education must have at least 6 courses in the fields of Mathematics, Science, and Arts, and a minimum average of 75% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. H. Certificates of Secondary Education from a recognized school: Students may be admitted upon meeting the following conditions: 1. Completion of secondary education or an equivalent level with a grade of at least B or above in all courses in Science, Math, and English. 2. A minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. I. Certificates of Secondary Education from a Ministry of Education or its equivalent: Students must have studied 6 courses in the fields of Mathematics, Science, and Arts, and a minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. J. Certificates of Secondary Education from a private school: Students must have studied 6 courses in the fields of Mathematics, Science, and Arts, and a minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. K. Certificates of Secondary Education from a foreign country: Certificates of Secondary Education from a foreign country may be admitted to an undergraduate program according to the following criteria: 1. Completion of secondary education or an equivalent level with the grade of at least B or above in Biology or Chemistry in Gr12 certificate. 2. A minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. L. Certificates of Secondary Education from a recognized school: Students may be admitted upon meeting the following conditions: 1. Completion of secondary education or an equivalent level with a grade of at least B or above in all courses in Science, Math, and English. 2. A minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. M. Certificates of Secondary Education from a Ministry of Education or its equivalent: Students must have studied 6 courses in the fields of Mathematics, Science, and Arts, and a minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. N. Certificates of Secondary Education from a private school: Students must have studied 6 courses in the fields of Mathematics, Science, and Arts, and a minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. O. Certificates of Secondary Education from a foreign country: Certificates of Secondary Education from a foreign country may be admitted to an undergraduate program according to the following criteria: 1. Completion of secondary education or an equivalent level with the grade of at least B or above in Biology or Chemistry in Gr12 certificate. 2. A minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. P. Certificates of Secondary Education from a recognized school: Students may be admitted upon meeting the following conditions: 1. Completion of secondary education or an equivalent level with a grade of at least B or above in all courses in Science, Math, and English. 2. A minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. Q. Certificates of Secondary Education from a Ministry of Education or its equivalent: Students must have studied 6 courses in the fields of Mathematics, Science, and Arts, and a minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. R. Certificates of Secondary Education from a private school: Students must have studied 6 courses in the fields of Mathematics, Science, and Arts, and a minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. S. Certificates of Secondary Education from a foreign country: Certificates of Secondary Education from a foreign country may be admitted to an undergraduate program according to the following criteria: 1. Completion of secondary education or an equivalent level with the grade of at least B or above in Biology or Chemistry in Gr12 certificate. 2. A minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. T. Certificates of Secondary Education from a recognized school: Students may be admitted upon meeting the following conditions: 1. Completion of secondary education or an equivalent level with a grade of at least B or above in all courses in Science, Math, and English. 2. A minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. U. Certificates of Secondary Education from a Ministry of Education or its equivalent: Students must have studied 6 courses in the fields of Mathematics, Science, and Arts, and a minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. V. Certificates of Secondary Education from a private school: Students must have studied 6 courses in the fields of Mathematics, Science, and Arts, and a minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. W. Certificates of Secondary Education from a foreign country: Certificates of Secondary Education from a foreign country may be admitted to an undergraduate program according to the following criteria: 1. Completion of secondary education or an equivalent level with the grade of at least B or above in Biology or Chemistry in Gr12 certificate. 2. A minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. X. Certificates of Secondary Education from a recognized school: Students may be admitted upon meeting the following conditions: 1. Completion of secondary education or an equivalent level with a grade of at least B or above in all courses in Science, Math, and English. 2. A minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. Y. Certificates of Secondary Education from a Ministry of Education or its equivalent: Students must have studied 6 courses in the fields of Mathematics, Science, and Arts, and a minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics. Z. Certificates of Secondary Education from a private school: Students must have studied 6 courses in the fields of Mathematics, Science, and Arts, and a minimum average of 85% (Scientific Section) for applying to the College of Science, and 80% for applying to the College of Computing and Informatics.
